

SPI-Chem™ DMP-30 Epoxy Accelerator

2,4,6-tris (dimethylaminomethyl) phenol; DY 064

Chinese

Purpose: Tertiary amine epoxy accelerator
 $C_{15}H_{27}N_3O$

Appearance: Light yellow liquid

Odor: Amine odor

FW: 265.0

BP: > 212° F (>100°C)

Flash point: 148.89° C

Minimum assay: 95%

Specific gravity: 0.973

Vapor density (Air=1.0): > 1g/l

Appearance: Light yellow liquid

NIOSH (RTECS) Number: SN3500000

CAS #: 90-72-2

Shipping name: Amine, liquid, corrosives, N.O.S

Class 8:

Packing Group III

UN #: 2735

DMP-30 is an accelerator for a number of different epoxy resin formulations. This component generally has a shorter shelf life than the other components of most resin formulations. However, there are precautions one can take to lengthen the shelf life of DMP-30, thereby mitigating in some respects its shorter shelf life relative to BDMA.
